Learning Activity #2

• What are the similarities between the command and control in your own armed forces and that in the UN peacekeeping missions?

• What are the differences?

• What are the challenges?

• What does it mean to staff officers?
Learning Activity #3

Use only one word as a piece of advice to would-be UN staff officers, describing the command and control in peacekeeping missions.
Operational Control - Military

The authority granted to a Military Commander in a United Nations Peacekeeping Operation to direct forces assigned so that the Commander may accomplish specific missions or tasks which are usually limited by function, time or location, to deploy units concerned and/or military personnel, and to retain or assign Tactical Command or Control of those units/personnel.
Operational Control - Police

The Head Of Police Component exercises operational control over personnel of the police component of the peacekeeping operation. Such control allows the HOPC to assign separate tasks to all individual personnel, units and sub-units within the police component, as required, within the mission area of responsibility.

The HOPC may delegate such responsibility to the appropriate subordinate levels.
Tactical Control

The detailed and local direction and control of movement, or manoeuvre, necessary to accomplish missions or tasks assigned.

As required by operational necessities the Head of Military Component (HOMC) and Head of Police Component (HOPC) may delegate the Tactical Control of assigned military forces/police personnel to the subordinate sector and/or unit commanders.
Administrative Control

The authority over subordinate or other organizations within national contingents for administrative matters such as personnel management, supply, services and other non-operational missions of the subordinate or other organizations.

Administrative Control is a national responsibility given to the National Contingent Commander (NCC) in peacekeeping operations.
Tasking Authority

The authority vested in specified senior appointments (Head of Military Component (HOMC), Head of Police Component (HOPC) or Director of Mission Support /Chief of Mission Support (DMS/CMS) of UN peacekeeping operations to assign tasks to enabling units.

Tasking authority includes the authority to deploy, redeploy and employ all or part of an enabling unit to achieve the mission's mandate.
Tasking authority over military or police personnel/units, when exercised by civilians is applicable for their routine, day to day employment and does not include tactical control of military/police resources exercised purely in pursuance of military or police operations.
“Enabling Units”

- Aviation
- Engineering
- Logistics
- Medical
- Signals
- Transport
- EOD
Summary of Key Messages

- The SRSG exercises UN operational authority over all military, police and civilian personnel deployed to a peacekeeping operation.

- The heads of military and police components exert operational control over military and police units and sub-units, respectively.

- Operational control can be delegated to sub-levels as circumstances warrant.

- The DMS has tasking authority over military and police enablers including military transport helicopters.

Integrated Assessment and Planning
Aim

The aim of these lessons is to introduce military staff officers to the basics of the Integrated Assessment and Planning process with a view to facilitating their participation in its implementation.
Learning Outcomes

• Learn about the Integrated Assessment and Planning Process in the UN

• Comprehend the role of the field SOs and the role of the headquarters in the process
Lesson Content

- Understanding Integrated Assessment & Planning
- IAP Process & Methodology
- Roles and Responsibilities of Military Staff Officers in IAP
Introduction to Integrated Assessment and Planning

“There is currently no integrated planning or support cell in the Secretariat that brings together those responsible for political analysis, military operations, civilian police, electoral assistance, human rights, development, humanitarian assistance, refugees and displaced persons, public information, logistics, finance and recruitment.”

- The 2000 Brahimi Report
Integrated Assessment and Planning processes

= Collective strategy to tackle crisis and consolidate peace

⇒ IAP allows political, peacekeeping, humanitarian, human rights and development entities to share a common analysis and common strategic objectives for peace consolidation, for planning and implementing responses in conflict and post-conflict settings.
Requirements of Establishing a Multi-Dimensional Mission alongside UN Country Team

- Coordinated monitoring and reporting
- UN Country Team
- Joint Assessment
- UN PKO Mission
- Coordinated Planning
- Common Vision and Priorities
Joint Strategic Assessment is to ensure shared understanding of:

- Conflict or post-conflict situation
- Role of stakeholders
- Core peace consolidation priorities
- Risks and opportunities
Common Vision and Priorities

Articulation of common UN vision, priorities, responsibilities and structural and coordination arrangements through:
- Mandate
- SG Directive for the HOM/SRSG
- SG Directive for RC/HC
- Integrated Strategic Framework (ISF)
Coordinated Planning

Integrated mechanisms levels should be established for:
- Joint information-sharing
- Joint analysis
- Joint planning
- Coordination
- Joint decision-making
In mandate implementation, there should be integrated monitoring and reporting on the implementation of the Directive to the S/ERSG, RC and HC, the ISF, and other integrated plans and regular reports to the Secretary-General to the Security Council.

Analytical Tool
Key Integrated Planning Documents

• Directive to the S/ERSG, Resident Coordinator (RC) and Humanitarian Coordinator (HC)

• Integrated Strategic Framework (ISF)
Scope of the Integrated Strategic Framework and Linkages with other Mandated Frameworks
ISF Scope – Model 1

ISF in Peace Consolidation or Peacebuilding context

- Humanitarian (CHAP/CAP)
- Development (UNDAF, PRSP)
- Peace and Security (Mandate and RBB)

Scope of ISF
ISF Scope – Model 2

- Humanitarian (CHAP/CAP)
- Development (UNDAF, PRSP)
- Peace and Security (Mandate and RBB)

Scope of ISF
Learning Activity

Analyze the ISF of UN presence in Central Africa Republic and discuss about the following issues:

• Purpose of an ISF
• Findings from integrated assessments
• UN role and comparative advantages
• Peace consolidation priorities
• Form and depth of integration
• Agreed results, timelines, responsibilities and implementation arrangements
• Coordination mechanisms
• Common monitoring and reporting framework
Questions to be Answered by Integrated Monitoring and Reporting Framework

- Are the joint strategic objectives being realized?
- What is preventing progress towards the joint strategic objectives?
- What corrective measures could be taken?
- Are the entities participating in the ISF abiding by the commitments/agreements?
- Is the underlying analysis (of the conflict, of the operational environment) still valid and are the strategic objectives still relevant (if the situation on the ground has changed)?
The purpose of a Strategic Assessment is to:

- develop a shared understanding of a conflict or post-conflict situation;
- define the role of stakeholders and core peace consolidation priorities; and,
- propose options for UN engagement on the basis of an assessment of risks and opportunities.

The scope and content of an ISF will be unique in each country situation.

Learning Activity

Analyze the SG Directive to SRSG of the UNAC in Carana and discuss the following issues:

• Situation assessment
• UN-system wide strategic direction
• Mission priorities
• Initial responsibilities
• Structural and coordination arrangements
• Basic planning parameters
Summary of Key Messages

• Military inputs into the advance planning stage will especially concern the situation analysis, planning assumptions, risk assessment and constraints.
• The operational estimate will lead to the development of a preliminary Concept of Operation.
• The finalized CONOPS provides the basis for the preparation of the ROE/DuF and the SURs for each type of military unit.
• The life cycle of a peacekeeping operation can be divided into three phases: start-up, mandate implementation, transition.
