OVERVIEW

This learning assessment is composed of a pre-training quiz aimed at assessing learners’ knowledge on child protection before the training; short quizzes after each module for learners to self-assess their learning; and a final quiz to assess learners’ knowledge after the completion of the training.

LEARNING OUTCOME

- Assess the pre-training knowledge of participants on child protection issues
- Allow participants to self-evaluate their level of learning after each module
- Assess the learning of participants at the end of the training

ACTIVITY

Multiple choice quizzes

LEARNING HANDOUT

- Pre-training multiple choice quiz
- Multiple choice quizzes for each module
- End of training multiple choice quiz

FACILITATION TIME

Approximately 2 hours: 10 minutes included in each module and 30 minutes for end of training quiz
The evaluation aspect of this training is divided into three parts:

1. A pre-training multiple choice quiz to enable learners and trainers to assess learners’ level of knowledge of child protection issues prior to the start of the training;
2. Short, multiple choice quizzes at the end of each training module to enable learners to self-assess their level of learning;
3. An end of training multiple choice quiz to assess learners’ level of learning after this training.

You will see trainer’s notes at the beginning of the introductory session and at the end of each training module to guide you on when and how to use the pre-training and end of module quizzes. The quizzes are provided below, with the correct answer indicated in bold font.

Please note that all questions are multiple choice. There is only one correct answer to each question. Remind participants of this before every quiz to ensure there is no confusion about this aspect.

On some occasions, trainers may envisage using the quiz at the beginning of the session, to measure the level of knowledge and enter the subject matter differently. It is up to the trainer to adjust how she or he will use the quiz.
