United Nations Training of Trainers Course

Aim and Objectives:

The Objectives of the course are:

• To serve as a foundational module for ITS training of trainers, conducted independently or together with CPTM and STM modules;
• To provide step-by-step guidance on how to facilitate and deliver pre-deployment training sessions that meet the UN peacekeeping training standards.
• Understand the peacekeeping training cycle, architecture and standards as well as a standardised approach on how to most effectively deliver training based on adult learning principles using the most effective communication, presentation, facilitation and teaching skills.

Target Audience:

The main target group includes Member States and peacekeeping training institutions civilian, military and police training officers and subject matter experts.
