

Module 3  
Military Peacekeeping-  
Intelligence  
Operational Framework

# Module 3 Content

- MPKI Overview
- MPKI Direction
- MPKI Acquisition
- MPKI Analysis
- MPKI Dissemination
- Analysis of the Operating Area (AOE)
- Information Security

# Lesson 3.0

## MPKI Cycle & Intelligence Functions

# Content

- Introduction
- The MPKI Cycle - Overview
- Direction
- Acquisition
- Analysis
- Dissemination

# Learning Outcomes

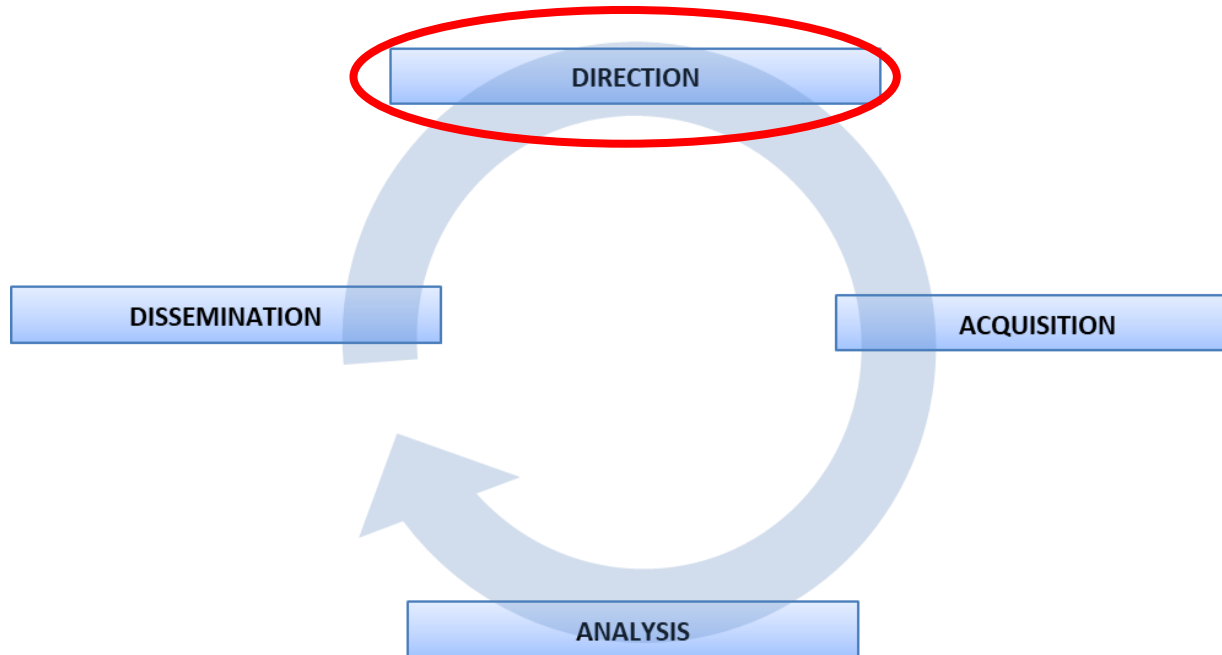

- Explain the MPKI Cycle as a continuous process
- Explain which sub processes falls under each of the Intelligence Functions

# The MPKI Cycle

- is the mechanism for producing MPKI
- is a continuous & perpetual process
- consists of four Intelligence Functions
- *owned by the peacekeeping intelligence staff*

# Direction

- **DIRECTION**
- AQUISITION
- ANALYSIS
- DISSEMINATION

# Direction

- Commander's guidance to Intelligence community
- Given formally in the form as CCIRs and PIRs
- Assures PKMI supports the mission objectives
- Helps focus acquisition efforts

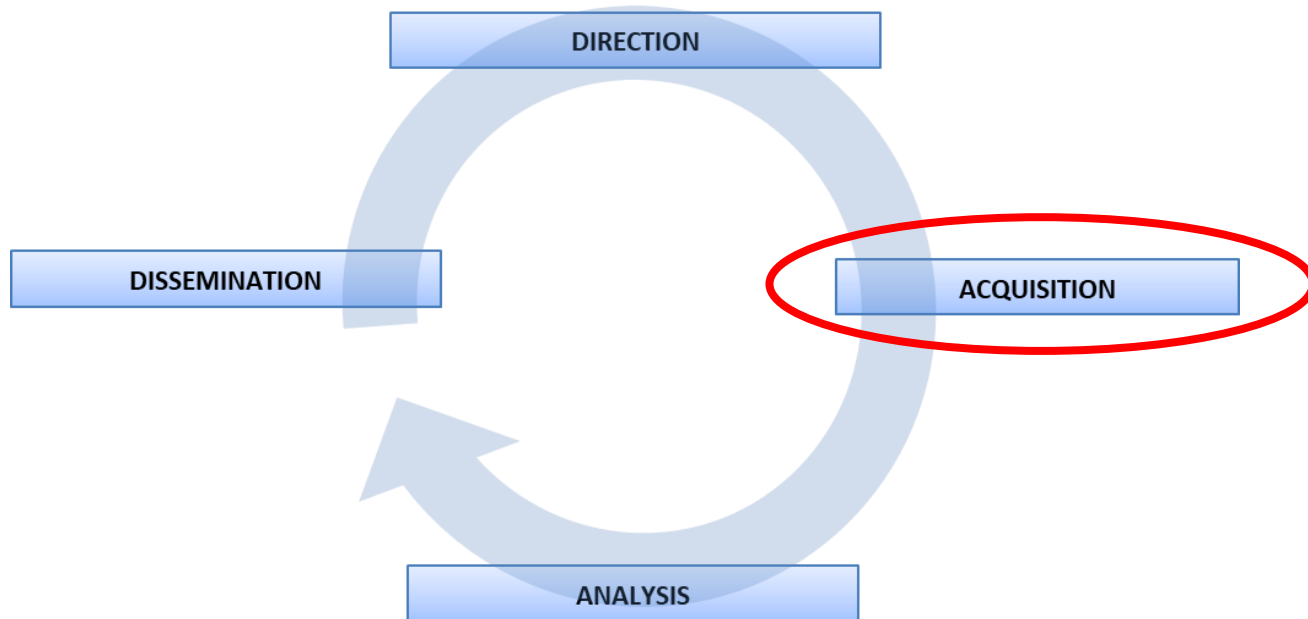

**What does Leadership want/need to know?**

**How do I manage acquisition assets to find the answers?**

Intelligence and Information Requirements are NOT static, require you to *take ascertain* direction, and to *give* direction

# Acquisition

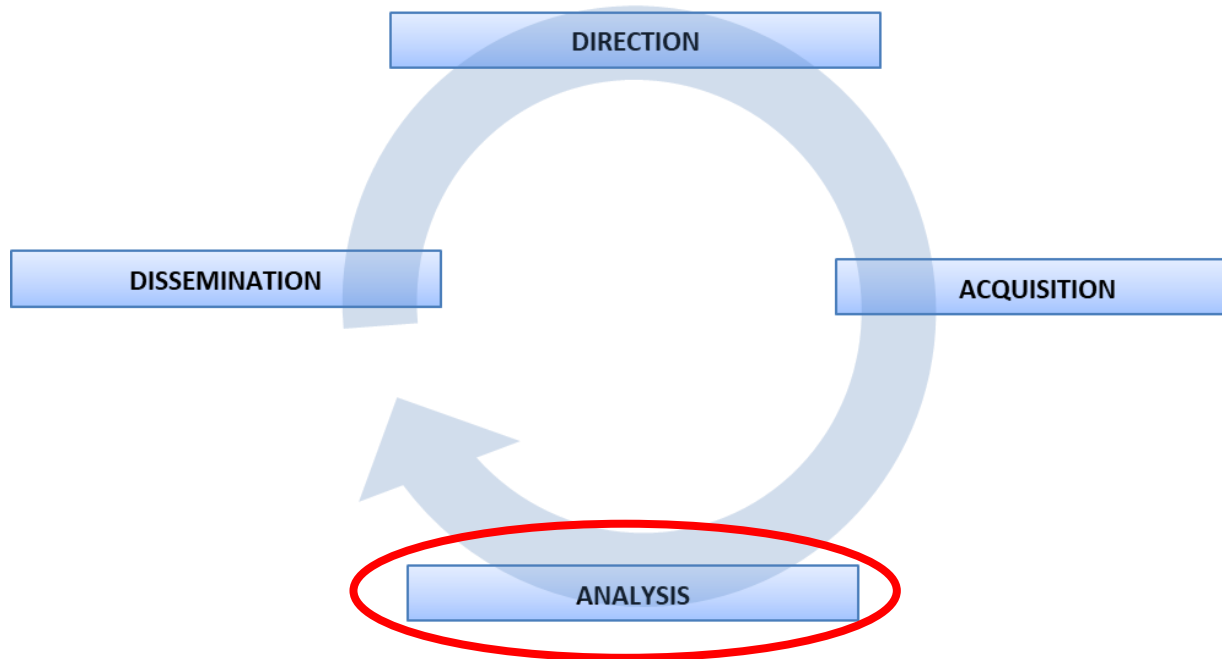

- DIRECTION
- **ACQUISITION**
- ANALYSIS
- DISSEMINATION

# Acquisition

- Operationalized through the IAP
- Limited by capacity to collect (scarcity of acquisition assets)
- Requires an understanding of given Direction

# Analysis

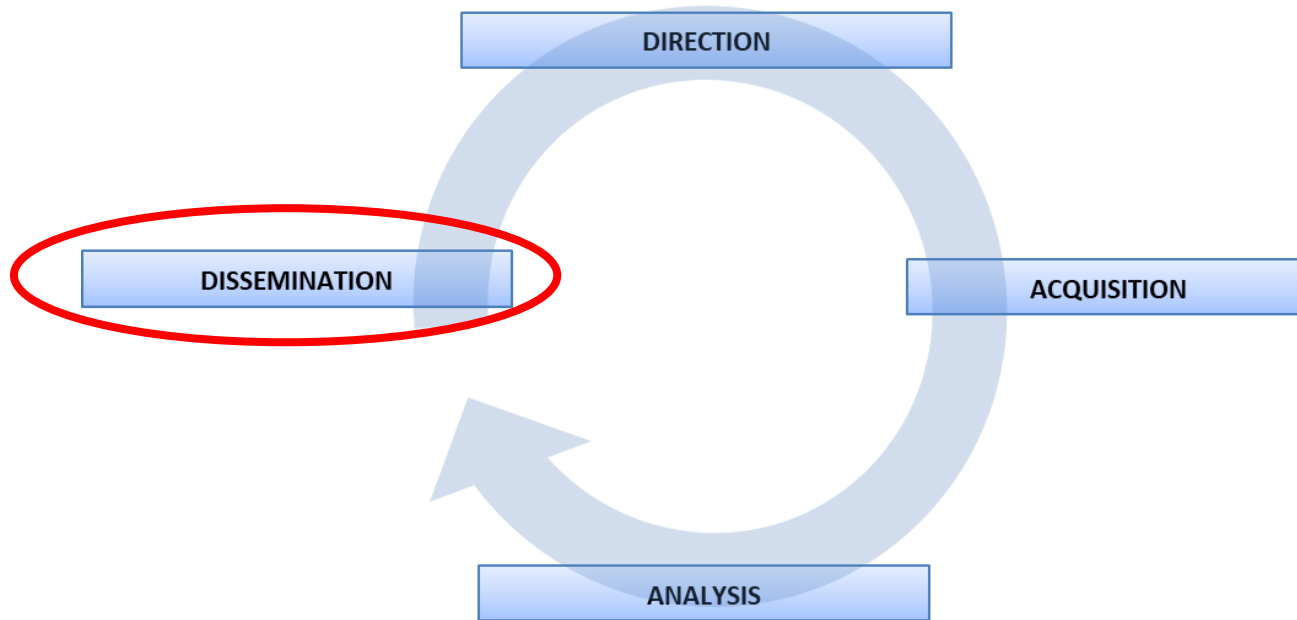

- DIRECTION
- AQUISITION
- **ANALYSIS**
- DISSEMINATION

# Analysis

*Analysis is the structured examination of all relevant information to develop knowledge, which helps to give meaning to events within an operational environment*

# Dissemination

- DIRECTION
- AQUISITION
- ANALYSIS
- **DISSEMINATION**

# Dissemination

- Output from analysis is disseminated
- Timeliness vs. completeness
- Need to know/need to share
- Degrees of processing

# Take Away

- The PKMI Cycle is the UN-recognized process
- Consists of the four Intelligence Functions
- Structured, systematic, cyclical and recognizable
- Predictable output (for dissemination)
- Need to know/need to share
- Supports and integrates with the MDMP

# Questions
